

## **Executive Energy Briefing**

### ***Learn how to lead your company in the new energy era...***

- August 23, 2006 7:30 AM - 9:00 AM - The Plaza Club

As one of the prominent leaders in Hawaii's economic landscape, you are cordially invited to join the Hawaii Energy Policy Forum at its 2006 "Energy Briefing." This event is by invitation only as our goal is to help Hawaii's most influential individuals lead their organizations into an energy efficient future.

At the event we'll be introducing the new "Energy by Example" program and will select one of the attendees to receive a \$20,000 energy assessment on their business -- free of charge -- as our commitment to moving Hawaii to smarter energy efficient businesses. We'll cover the details at the event.

### **Who should attend?**

- Hawaii's top executives in business, non-profit, and the government sectors.
