

3. Reduce Greenhouse Gas Emissions in Hawaii

- Focus of the Greenhouse Gas Emissions Working Group

Actions to be taken:

1. Monitor the actions of the Greenhouse Gas Emissions Task Force.
2. Monitor actions of stakeholders, stakeholder groups, governmental agencies or other entities involved in the analysis, regulation or implementation of greenhouse gas measures and policies.

Actions taken:

1. Conducted a Greenhouse Gas Emissions panel discussion, which updated members and the public on the current state of the UH greenhouse gas emissions working group (2007)
2. Supported 2008 legislation (Act 235) appropriating \$140,000 to establish two positions in DBEDT to support the Greenhouse Gas Emissions Task Force created by Act 234, SLH 2007.
